Why H2Over Viewers:

- 1) Experience** – 3 highly trained viewers with decades of combined experience redetermining over 700,000 acres in over 18 Minnesota counties with zero appeals to date.
- 2) Deliverables** – We provide the highest level of GIS maps to the drainage authority for future use and complete transparency into our viewing process.
- 3) Process** – Proven process that allows us to provide future improvement determinations and the ability to input changes into drainage coefficients throughout the watershed to produce a high-level improvement determination quickly.
- 4) Partnerships** – H2Over Viewers has a strong partnership with an experienced and reputable engineering firm in the drainage community, providing crucial access to a team of drainage engineers at no additional cost to the drainage authority or project.
- 5) Insurance** – Professional insurance coverage provided at no additional cost:
 - 1 million in Professional Liability
 - 1 million per occurrence and 2 million aggregate in General Liability
 - 1 million for any employee driving any vehicle(s) doing work for H2Over Viewers
 - 1 million umbrella on top of the aforementioned
- 6) Pricing and Contracts** – Up front contracts, allowing clients to know the cost and deadlines before we start.

H2Over Viewers is the best turn-key provider in the industry. We strive to not only achieve the desired results through decades of experience and state-of-the-art technology but deliver transparency throughout the entire process. H2Over Viewers is dedicated to delivering peace of mind while minimizing the work necessary from the Drainage Authority and its staff.
